

ActivGrip™ Series

ActivGrip™ Advance

OIL GRIP PERFORMANCE EXCELLENCE – THE NEW STANDARD.

TOWA
www.towagloves.com

DESCRIPTION

ActivGrip™ Advance is taking Towa's already impressive line of premium industrial gloves a step further into the future. The Advance is specifically designed to provide maximum "all around" performance on slippery-grip applications in non-hazardous chemical environments. The 13-gauge seamless nylon liner and "open back styling" provide excellent coolness and flexibility, which minimize hand fatigue, thus increasing productivity. A soft yet durable nitrile coating technology adheres to virtually any dry or slippery surface.

FEATURES

Oil Resistant: Unlike similar gloves available in the market, ActivGrip™ Advance offers more promising protection to oil penetration. Double coated surface keeps hands clean for material oily handling.

Confidence: With MicroFinish™ technology, the Advance promises its performance under dry, wet, and oily conditions.

Comfort: A 13-gauge seamless liner and ergonomic design assure a maximum comfort and minimum hand fatigue.

TECHNOLOGY

MicroFinish®

MicroFinish® makes it possible to offer ultimate grip that is unsurpassed.

APPLICATIONS

Assembly
Automotive
Machine Operation
Oily Material Handling
