

Cemetery Equipment

Superior Lowering Device

#3287-C Chrome

#3287-SS Stainless Steel

For continuous dependability, rely on Junkin to guarantee longer-lasting service.

Features:

- Lifetime lubrication
- New and improved positive lock braking system

Finished in heavy-duty, gleaming chrome plate, polished aluminum and stainless steel. There is no better value!

Closed: 67-1/2" L x 26" W.

Adjusts to 40" L x 95-1/2" W.

Straps: 21' long, each tested to 400 lbs.

Speed control: Complete on all models.

Load Capacity: 800 lbs.

Lowering Device with Placer Arms

#3287-CR Chrome

#3287-SSR Stainless Steel

Includes all the same features as the Superior Lowering Device with the addition of placer arms. Check bars are located at either end of the Lowering Device to hold the casket motionless even on hilly terrain. Finished in heavy-duty, chrome plate, polished aluminum and stainless steel.

Casket Placer

Smooth, noiseless service with self-lubricating nylon bearings, the Casket Placer operates independently of the Lowering Device. It is easy to assemble and dismantle. Locking placer arms and check bars at either end hold the casket motionless even on hilly terrain.
