

Gated Ball Valve

Female 2 1/2" rocker lug swivel inlet with (2) 1 1/2" male outlets. Operates easily under high pressure. Red body with chrome trim or polished brass. Rugged die-cast handles. NST threads. *Ship. wt. 10 lbs.*

- ▶ Two way
- ▶ Quarter turn
- ▶ Full flow

AR118	Gated Ball Valve, Chrome-Plated Trim	\$338.95
AR119	Gated Ball Valve, Polished Brass	\$317.95

Lightweight Gated Valve

No more heavy brass valves to carry around. Our lightweight line wyes with aluminum construction cut the overall weight by more than 30% when compared to traditional brass valves. *Ship. wt. 8 lbs.*

BE257	2 1/2" NSTF Inlet x (2) 1 1/2" NSTM Outlet Valve	\$213.95
BE315	2 1/2" NSTF Inlet x (2) 2 1/2" NSTM Outlet Valve	\$299.95

2-Way Wye

These wyes are made of aluminum alloy that has been heat-treated. The other major components are made of stainless steel and galvanized brass. This lightweight and smaller design minimizes the friction loss by up to three times. *Ship. wt. 12 lbs.*

AW064	1 1/2" F Inlet x (2) 1 1/2" M Outlet Wye	\$209.95
AW065	2 1/2" F Inlet x (2) 1 1/2" M Outlet Wye	\$223.95
AW066	2 1/2" F Inlet x (2) 2 1/2" M Outlet Wye	\$279.95

Darley Plain Wye & Plain Siamese

These standard fittings are regulation equipment on all pumps and no Chief can afford to be without them. The **B225** is a plain wye with two male threads and one female thread. Used to take two hose lines from one to one. The **B258** is a plain Siamese with two female threads and one male thread used to unite two streams into one. *Ship. wt. 10 lbs.*

	Brass
B225	
1 1/2" F x (2) 1 1/2" M	\$142.95
2 1/2" F x (2) 1 1/2" M	\$163.95
2 1/2" F x (2) 2 1/2" M	\$194.95
B258	
2 1/2" M x (2) 2 1/2" F	\$415.95

Hydrant Gate Valve

Lightweight cast and extruded aluminum construction. Features 2 1/2" female swivel inlet and 2 1/2" male rigid outlet. The body and both inlet and outlet fittings are hard anodized. The internal, non-rising brass actuator stem requires approximately 10 turns to open or close. Precision-machined surfaces provide a good metal to metal seal. NST threads. *Ship. wt. 12 lbs.*

Open pressurized gates slowly

BE097	Hydrant Gate Valve	\$227.95
--------------	--------------------	----------

Single Gate Valve

These gate valves are made with a full size waterway. They are used next to the hydrant, so that one stream may be stopped without interfering with the other. Withstands 400 lbs. of pressure. *Ship. wt. 12 lbs.*

B73901	2 1/2" Brass, Rocker Lug Valve	\$292.95
B73902	2 1/2" Chrome Pin Lug Valve	\$321.95

Darley Hydrant Valve

This is the same Darley Ball valve used on our midship pumps. It features a 2 1/2" swivel female inlet x 2 1/2" male outlet. Suitable for controlling hydrant flows. Body is red with chrome trim and featured at a price you can't beat. *Ship. wt. 14 lbs.*

1/4 turn valve

M988	2 1/2" NST Hydrant Valve	\$405.95
