Chimney Snuffer Kit

Easily operated by one person, this amazing chimney fire extinguisher features an aluminum nozzle with eight strategically placed discharges to spray 2.66 quarts of water per minute at 60 psi to reduce knockdown time. The spray produces a rising steam cloud that robs the fire of heat and oxygen. The torpedo shape of the Snuffer makes it easy-to-penetrate creosote buildup that hampers all other extinguishment methods. Ultimately there is no water damage or cracked chimney tiles.

Rugged aluminum design requires no maintenance. The entire kit is portable, easy-to-use and convenient to store.

Ship. wt. 19 lbs.

Includes:

- ▶ Snuffer nozzle
- ▶ Ball shut-off valve
- ▶ 25' of 1" hose
- ▶ Carrying case
