

The Responder 3C Interchangeable Power Supply

The Responder 3C can change from alkaline battery power to rechargeable Ni-Cad power without any tools or trays, giving you longer burn time and more options. The batteries provide 50,000 CP for five hours, while the Ni-Cad battery pack adds an additional two hours at 35,000 CP. Equipped with a dual switch (rotating head or push button) and a spare battery changer, the Responder is waterproof and submersible to 100 ft. *Ship. wt. 1 lb.*

AS050 Responder 120V AC & 12-24 DC Plug \$130.95

Mini-Hazmat Flashlight

This powerful, bright light delivers up to 30,000 beam candlepower from a prefocused Xenon bulb, yet it is small enough to fit into your coat pocket or hang from your belt. Watertight, chemical-resistant case is submersible to 35'. Push button switch allows for easy, one-hand operation. Split ring on the end makes it easy to attach to belt, lanyard or coat. Measures 6.8" long. Takes two "C" cell alkaline batteries (not included). *Lifetime warranty. Ratings: UL: Class 1, Division 1, UL: Class 1, Division 2. Ship. wt. 1 lb.*

AS689 Mini-Hazmat Flashlight \$23.95

Yellow 2 C-Cell

The Responder Right Angle Flashlight Lets You Choose the Power

Rechargeable Ni-Cad or Alkaline Battery-Powered Responder

A unique and revolutionary design that features interchangeable power supply, a must-have option for professionals on the job. With the 4.8-volt Ni-Cad rechargeable pack, the Responder provides more than 2 hours of continuous light and a quick charge time of 2 hours. Should you not have time to recharge, simply replace the rechargeable battery pack with four C-cell Alkaline batteries and you immediately have five more hours of light. Light easily snaps into charger/storage unit and features one-handed release. Rugged, impact-resistant polycarbonate housing is lightweight (entire light weighs less than one pound), water-resistant and can be worn on the optional shoulder strap or clipped to your belt or pocket. Pre-focused beam comes from the super-bright halogen bulb producing 45,000 CP with Ni-Cad battery and 60,000 CP with Alkaline batteries. Oversized push button switch allows easy, one-handed operation with gloves. Comes with a two spare bulb holder (spare bulbs sold separately). *Survives 30 ft. drop test, UL/CUL/CSA certified for hazardous locations. Responder (Division 1) Orange, Responder (Division 2) Yellow. Ship. wt. 3 lbs.*

- ▶ Rechargeable Ni-Cad or Alkaline operation
- ▶ Oversized On/Off glow labels
- ▶ Quick change bulb
- ▶ Charges in 2 hours

AS052 Orange Responder Div. 1 Flashlight \$171.95
