

A. Gripper Hose System

An Effective Way Of Transporting Hose

The Gripper Hose System consists of three heavy duty nylon straps, with a padded shoulder sling, all sewn together to create a hose harness. The gripper has a padded high visibility shoulder sling, with three 2" wide, 42" long, 3000-pound strength webbing to secure the hose. Utilizes cam buckles and torque rings and is easily opened with a gloved hand. The 42" long straps have the capacity to hold more hose than the average firefighter can carry. *Ship. wt. 4 lbs.*

B. Hose Vice

Carry More Hose Easier

The latest evolution of hose carrying systems incorporating many features requested by users just like you. The newly designed heavy-duty shoulder straps are interconnected by three stiff nylon spines giving the Hose Vice a strong, secure feel. Shoulder straps are also adjustable and removable and are large enough that a firefighter can carry the bundle across the body for better balance. With additional handles incorporated into the ends of the four shoulder straps, two firefighters can carry it as well. What's more, the Hose Vice has a large carrying capacity; it can carry up to 250 feet of 1 $\frac{3}{4}$ " hose or 150' of 2 $\frac{1}{2}$ " hose. Adjustable side release buckles can be used with the gloved hand and are easy-to-operate. *Ship. wt. 3 lbs.*
