

## COMFORT, STYLE AND PROTECTION

Fibre-Metal HOMERUN brand caps combine the attractive style and comfort of a quality baseball cap with the protection of a thermoplastic inner liner to create a bump cap that protects from minor lacerations, abrasions and bruises.

HOMERUN caps are perfect headwear for people who work in areas where they are liable to bump their heads on stationary objects present in their workplace. (They do not provide protection from falling objects. ANSI certified Fibre-Metal SUPEREIGHT® protective caps must be used for that purpose.)

## LOWER COSTS, INCREASE PRODUCTIVITY

Minor head lacerations, abrasions and bruises may not have a major direct cost compared with more serious injuries but they do incur substantial indirect costs in terms of employee downtime and absenteeism. It is well documented that a comfortable, protected worker stays on the job longer and produces more at a lower cost.

Fibre-Metal's HOMERUN caps are a new concept in head protection designed to help meet those goals.

## BROAD BASED APPLICATION

HOMERUN style bump caps are appropriate for use in a wide variety of application:

- Food Processing
- Oil Change and Muffler Shops
- Automotive Service Centers
- Maintenance Departments
- Transportation Distribution Centers
- Security Departments
- Hunting and Fishing
- Boating

**Cool, lightweight, stylish protection from bumps, bruises and lacerations**

Model SBC
