The New Unibody Valve from Elkhart Brass

It's the only valve in the industry completely engineered and designed with simple, trouble-free configuration, installation, operation, and service in mind. Choose your valve, and then select your actuator. Simple enough for you?

Easy-to-Configure

- ▶ Single body construction
- ▶ Actuator not dependent on valve

Easy-to-Operate

- ▶ No gaskets or O-rings
- ▶ Stainless steel ball
- ▶ Dual self-adjusting seats

Easy-to-Order

- ▶ Simplified naming structure
- ▶ Only one valve per size - no matter the actuator

Easy-to-Service

- ▶ Swing-out body
- ▶ Bi-directional water flow
- ▶ Cross-compatibility for trouble-free switching

NEW

* Includes: Unibody, Actuator and, NPT Endcaps

BG174	1 1/2" Unibody Valve*	\$293.95

BG175	3" Unibody Valve*	\$627.95

2 1/2" Gated Wye

TFT's new 2 1/2" Gated Wye is designed for the rugged fire ground environment, yet is the lightest most flow efficient ever created.

- ▶ Lightweight, only 10 lbs.
- ▶ With its unique twin 2 1/2" waterways (the largest ever), there is less than 10 psi loss at 1000 gpm
- ▶ Exclusive color-coded folding handles store out of the way even in the tightest compartments
- ▶ The ONLY valve to offer an automatic valve lock even up to 250 psi operating pressure

NEW

BG525	2 1/2" Gated Wye	\$996.95
