

ASBESTOS & LEAD ABATEMENT

ROLL LABELS

CLED-35-LP

LAHL-12

Identify products that are asbestos free.

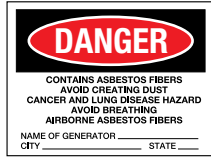

DLED-35-LP

DLGEN-35-LP

(generator style)

There are many laws requiring the labeling of particularly hazardous substances such as asbestos and lead, so that employees and the public can be made aware of potentially hazardous situations. Our Asbestos and Lead Contaminant Labels quickly warn others of possible exposure to these dangerous substances. Self-adhesive labels are 3"x 5" with 500 labels per roll, in colors shown. Printed on paper unless otherwise specified.

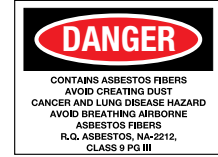

DGEN-35-HGS

DGEN-35-4MV (4 mil vinyl)
(generator style)

CHZL-35

These labels are required by the Asbestos Hazard Emergency Response Act (AHERA) in schools where asbestos-containing materials are present. Labels comply with 40 CFR. 763.95.

DCAF-35-HGS

DCAF-35-4MV (4 mil vinyl)

SIGNS

OSHA-style Lead and Asbestos Hazard Signs are available in 3 materials: vinyl, plastic or aluminum. See pages 2 and 3 for stock sizes and for ordering information.
