

# ***Vest-Style***

---

## ***Universal Harnesses***

Proven comfort and mobility comes from years of experience in building lightweight full body harnesses. North builds quality and comfort into its harnesses and the Vest-Style is no different. Adjustable shoulder straps and a chest strap that can be positioned in the optimum location for the user, eliminate the need for stretchable webbing. Proven polyester webbing provides added UV protection and chemical resistance. North offers many D-Ring, leg strap and closure combinations that there is sure to be one that suits every need. All North's harnesses designed for use in North America are made with a sub-pelvic strap to add comfort and help distribute the forces generated in a fall. These harnesses are engineered to meet or exceed applicable ANSI and OSHA requirements and are CSA certified.

FP759/1DP

FP759/1EDP

FP759/1DGP

### Features/Benefits

- Adjustable leg and shoulder straps and sliding chest strap – Allow wearers to find a safe and comfortable fit.
- Lightweight polyester webbing – Offers superior UV and chemical resistance.
- CSA approved and ANSI/OSHA compliant – Suitable for use in all industries throughout North America.

## FALL ARREST

### Features/Benefits

- Back D-ring – For fall arrest applications (CSA class A).
- Extended D-ring option – Makes lanyard connection easier and safer.
- Tongue and buckle leg strap option – Provides faster and easier donning.
- Universal size plus XL – Accommodates a wide range of body types.
- Lightweight polyester webbing – Offers superior UV and chemical resistance.
