Super Gloves

A New Era in Fire Fighting Hand Protection

- ▶ True 3-D hand-shaped styling with staggered layer seaming
- ▶ Bubble-Flex and Flex-Tuck construction with dead air spacer ridges allow natural hand flexing
- ▶ Eversoft black cowhide cuffs
- ▶ Top grain kangaroo leather on back for easy flexing and durability
- ▶ Digiroo™ digital kangaroo grip on palm and fingers
- ▶ High-temperature, stable and durable Crosstech® moisture barrier
- ▶ Wool 3-D heat guard on the back of hand delivers extra insulation at this often thermally-loaded area
- ▶ 3-D Air Assist™ thermal lining architecture that preserves microcapsules of air for thermal protection without traditional bulk
- ▶ NFPA 1971, 2007 edition certified

Specify size: **S-XXL**

FireGuard 3DX Gloves

Made with CarbonX

FireGuard is excited to introduce the latest addition to our family of structural firefighters gloves – the 3DX. The most current hi-tech fabrics and sewing technologies have been brought together in this ultimate glove and are designed to assist with the tasks associated with structural fire fighting. The ergonomically designed pattern features pre-curved fingers and palm to allow your hand to rest in its naturally curved position. Expandable leather allows for easy glove stretching when the hand is clinched. Flacavon® treated leather increases flame and water resistance and because it is top grain leather, it is stronger without sacrificing dexterity. To assure comfort and safety, W.L. Gore & Associates' Crosstech® Direct Grip® glove inserts are used. Crosstech® is a breathable insert which helps to wick moisture away from your hands. They also insure protection from blood, body fluids and NFPA indicated common fire ground chemicals. Crosstech® Direct Grip® inserts are highly abrasion-resistant and thermally stable. Welcome to the future.

- ▶ Crosstech® Direct Grip® glove inserts
- ▶ CarbonX® suspension interlock knit back insert
- ▶ Flacavon® H14/587 and Flacavon® APT treated top grain cowhide
- ▶ Expandable top grain cowhide patched
- ▶ Ergonomic 3-D pre-curved patterns
- ▶ Kevlar® thread

Specify size: **S-XXL**
