## Practice Foam Train for Pennies!

Practice Foam is an answer to the requests "give us an inexpensive product to train with!" Practice Foam is a variable percentage Class A type product. Safe and inexpensive to use, Practice Foam may be educted at low to high percentages to achieve the desired results of your training session. Although not intended for a "working fire", Practice Foam is entirely suitable for extinguishing training ground fires.

- ▶ Non-toxic, biodegradable and self-dissipating
- ▶ Plenty of suds - no clean up required
- ▶ For training only; NOT for fire fighting
- ▶ Sold in 5 gallon pails

**BG113** Practice Foam \$38.95/5-gallon pail

## X-pando Foam Concentrate

A detergent type variable percentage/variable expansion blend of foaming and wetting agents intended for Class A and B fires. Use through a CAFS or eductor to produce volumes of high-expansion foam or with regular foaming equipment consistent with the type of foam required. X-pando may be used with most foam making equipment. X-pando extinguishes with volumes of wet, moist foam, cutting the oxygen supply while creating cooling steam as the area is blanketed or completely filled. Used at 3% or less, X-pando offers low percentage use rates combined with reasonable per-gallon cost and infinite shelf life to give you a "general purpose foam value".

**BG115** X-pando Foam Concentrate \$51.95/5-gallon pail

## Phos-Chek Class A Foam

Provides superior foam generation at 0.1-1% use concentration. Phos-Chek has been tested by the U.S. Forest Service and is approved for use from ground engines, helicopter buckets, and helicopters equipped with fixed tanks. It is a U.L. listed wetting agent at 0.25% use rate effective on both Class A & B combustibles. Meets the requirements of NFPA 1150. Contains no EPA listed hazardous materials. PhosChek Class A works very well with CAFS at ratios of 0.2 to 0.3% and can produce the good dry foam associated with CAFS. *Ship. wt. 45 lbs.*

**Priced per gallon, sold in 5-gallon containers**

<b>AS285</b>	Phos-Chek 5 gal. Container	\$18.95/gal.
<b>AS289</b>	Phos-Chek 55 gal. Drum	\$16.95/gal.
<b>AS286</b>	Phos-Chek 4 oz./Case of 36	\$80.95

## Silv-ex Foam Concentrate

A multiple expansion Class A foam concentrate formulated from specialty hydrocarbon surfactants, stabilizers, inhibitors and solvents. Its combination of surfactants and solvents provides extremely good cold weather performance. The original forest fire control concentrate. Proven effective on many deep seated Class A fires. Can be proportioned from 0.1% to 1.0% in fresh, brackish or sea water. Silv-ex works very well with CAFS at ratios of 0.2 to 0.3% and can produce very good dry foam associated with CAFS. *Ship. wt. 45 lbs.*

**Priced per gallon, sold in 5-gallon containers**

<b>AB410</b>	Silv-ex Foam Concentrate	\$25.95/gal.

## Handy Foam™

### Portable Foam Unit With Self-Educting Foam Nozzle

Brings you everything you need in one package for your portable foam application. The latest in foam making with the exclusive self-educing foam nozzle with removable metering devices (0.4%, 1%, 3% and 6% concentration) that eliminate the use of eductors that have exceptionally high pressure drop. That means you can work at lower pressure from 30 to 60 psi and always accomplish a better reach and expansion ratio than with anything else you have used before. The foam unit's ergonomic and lightweight design is made from a high-impact polyethylene, and includes a tank that holds 2.5 gallons. The unit has a 20 gpm Low Expansion Nozzle, shoulder straps and storage bracket. *Ship. wt. 22 lbs.*

**AR197** Handy Foam™ \$1,033.95
