

## Little Ed™ Recoil LED™ with Photoluminescent Shroud

Don't be fooled by the name. This right angle light packs a punch. The Little Ed™ is made of ABS resin that's extremely strong, light weight, corrosion-proof, resistant to extreme temperatures, and is outfitted with our Recoil LED™ module. The Little Ed™ uses a 1 watt LED that's aimed backwards into the reflector. 100% of the light is captured and aimed forward as a tight collimated beam that's as bright as an incandescent. The Little Ed™ with photoluminescent shroud is outfitted with a lens ring that emits a bright glow in the dark. The new generation photoluminescent material in the plastic absorbs the energy from any light source - fluorescent lights, the sun, or even the flashlight's own beam. No more fumbling in the dark for your flashlight. For hands-free use, a stainless steel clip is built-in. Attach the Little Ed™ to your turnout coat or work shirt. It is powered by 4 AA alkaline cells (included). *Approvals: Class I, Div. 2 Gp. ABCD T4A; Class II, Div. 2 Gp. FG.*

- ▶ Light source: Recoil LED™
- ▶ Tested Lumen value: 32.0
- ▶ Tested Lux value: 4,300
- ▶ Batteries: 4 AA alkaline (included)
- ▶ Battery burn time: 32 hrs.
- ▶ Watts: 1, Voltage: 6
- ▶ Length: 7.51"

## Little ED™ Flashlight

Little ED™ is the compact version of the Big ED™ flashlight. You'll find the same "tough-as-nails" technology has been compressed into a personal size right angle light. The unique right angle head allows hands-free or hand-held use. A rugged stainless steel clip attaches the Little ED™ to turnout coats, pockets and belts. Xenon technology produces a super-bright white beam. The unbreakable ABS body resists water and chemicals in hazardous locations. Little ED™ Rechargeable includes drop-in handy Smart Charger base with 110v charger and hi-capacity industrial Nicad battery pack. This heavy-duty flashlight was designed for the firefighter. *Length: 6.5". Ship wt. 5 lbs.*
