

Raynger® Infrared Thermometer

The world's most popular, professional, hand-held, non-contact thermometer using infrared technology to measure the temperature of materials up close or from a distance in less than a second. Lightweight, compact and easy to use. You simply aim, pull the trigger and read the temperature on a large, backlit LCD display. Safely measure hot, hazardous or hard-to-reach materials without contaminating or damaging material's surface. Check out all the great features. *Ship. wt. 2 lbs.*

AR200

- ▶ Single laser sighting
- ▶ Temperature range: -25° to 750°F (-32° to 400°C)
- ▶ Distance/Spot: 12 to 1
- ▶ Accuracy +1%
- ▶ Backlit LCD display
