

WORK-BENCH™ WORK-BENCH & TABLE

Easy up, easy down and two easy ways to change them around! Our Work-Bench™ can be set up in minutes to create an instant temporary or permanent island of productivity within any warehouse, manufacturing floor or office environment.

Assemble them with a narrow-space upper shelf and you'll relieve worker fatigue by placing frequently used smaller supplies within quick and easy reach.

Use a larger lower shelf gap to store bulk products and bigger ready-to-grab items.

Pick from four sizes to fit virtually any need. Our original grid-top is ideal when work produces small scrap that can clutter work surfaces. Choose our solid-surface top panel option for tough jobs that require a clean, flat work surface.

Solid Top / Grid Lower					
Sizes	Part #	Solid Cap.	Grid Cap.	Total Cap.	Wt.
36" x 24"	WT3624	330	250	580	31
36" x 36"	WT3636	495	375	870	45
48" x 24"	WT4824	440	345	785	41
66" x 24"	WT6624	605	465	1070	53

66" x 24"	W6624	925	48
66" x 36"	W6636	1375	70
96" x 24"	W9624	1350	70
96" x 36"	W9636	2015	100

Published weight capacities of all products assume even distribution of materials across all panels

WORK-BENCH™ ADJUSTABLE

Craving increased versatility? Adjustable Work-Bench™ has you covered. The work level and middle panel can be adjusted up or down in four-inch increments. High-strength nylon pins hold panels in position so you don't have to worry about strength or capacity.

Adjustable Work-Bench™ accommodates any size job and works hard indoors or out.

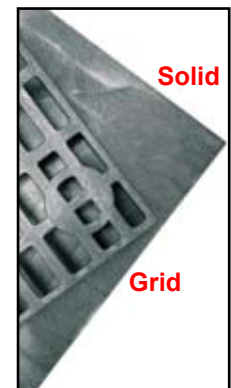

One workstation can now be used for a variety of tasks and fit the ergonomic needs of every employee.

Create individual work islands or place our incredible 96-inch-long systems end-to-end to build an assembly line that would make even Henry Ford jealous.

Our grid-top system provides ventilated lower-shelf storage and allows scrap material from the work surface to fall through. Solid-top systems are ideal for working with small tools, assembling small components and final packaging operations.
