

Plastic Pallets - Rotationally Molded

Rotationally molded pallets are used in applications calling for odd sizes or with very punishing conditions. All but part number WP-48 are double-walled construction to provide maximum durability. Molded interior supports help transfer loads between top and bottom pallet surfaces.

Regarding Odd Sizes & Weight Capacities: We specialize in providing custom-sized units made to your specifications. With our in-house mold-making ability, we offer fast turnaround and low tooling prices. All pallets can be made with thicker walls to allow greater weight capacity - call for details.

Model Number	L x W x H	Fork Tunnel Size (WxH)	Capacity	Weight
CH-42	42" x 42" x 7.5"	30" x 4.5"	1500 lb.	45 lb.
CH-48	48" x 42" x 7.5"	30" x 4.5"	1500 lb.	50 lb.
SUP-51	51" x 51" x 8.5"	2 @ 13" x 4.5"	1500 lb.	70 lb.
WP-48	48" x 48" x 8"	2 @ 9" x 4.5"	1000 lb.	50 lb.
QP-48	48" x 60" x 8"	2 @ 11" x 4.5"	1500 lb.	60 lb.
HMC-30	30" x 36" x 9.25"	2 @ 8.5" x 4"	1000 lb.	30 lb.
QP-64	64" x 38" x 12.5"	2 @ 12.5" x 4.25"	1500 lb.	50 lb.
QP-101	101" x 50" x 14"	2 @ 6.5" x 4.5"	1500 lb.	100 lb.

CH-42 & CH-48 (Available with rim as shown or flat-top)

SUP-51 (1.5" tall rim gives top surface I.D. of 49.5" x 49.5")

WP-48 with DRL-4845 drum pallet option.

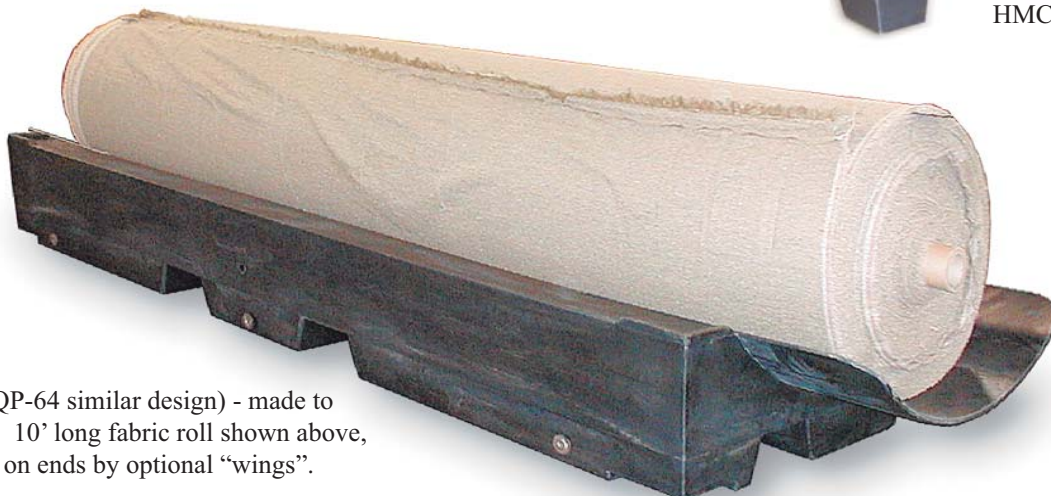

(12 gallon overspill capacity)

QP-48

HMC-30 roll pallet

QP-101 (QP-64 similar design) - made to hold rolls. 10' long fabric roll shown above, supported on ends by optional "wings".
