

## FB-1 Firefighter Mask

The Respro® FB-1 dust mask is provided to protect firefighters from contamination from dust in circumstances where breathing apparatus would not normally be considered or used, and it is reasonable to suspect that the surrounding air supply could be contaminated by certain types of invisible dust particulates. The FB-1 mask and its filter have been designed and manufactured to EN149 (European Standard for filtering face pieces) and is capable of filtering respirable sub-micron particulates. Now includes a convenient carry bag for storage. *Ship. wt. 1 lb.*

**NEW**

BG286	FB-1 Firefighter Mask	\$59.95
BG287	Particle Filter Pack	\$24.95

## Galaxis Goggle

- ▶ Replaceable polycarbonate lenses are impact resistant & block 100% of harmful UV radiation

## Quic-Tote® Hose Pack Bag

Transport Hose Quickly and Easily

Designed to be carried quickly to a fire location, the Quic-Tote® Hose Pack heavy-duty vinyl-coated nylon container. It includes a harness for carrying on the back or over the shoulders. Hose can also be coupled to standpipe while the firefighter wears the pack and feeds out the hose while moving to the scene.

Equipment not included

AB098	Quic-Tote® Hose Pack Bag	4 lbs.	\$235.95

## Brush Pro Mask & The Xcaper®

The Whiffs® Brush Pro mask is made of Advance Nomex® and the breathing port is made of Nomex® knitted hood material. Both carry a 1050° heat rating. The Brush Pro mask is lined with blue Indura® Ultra Soft® cloth with a hydro lone finish. This material helps to wick moisture from the firefighters face and prevents the transfer of radiant heat to the skin. The Brush Pro mask is the most versatile mask we make. It is excellent for wildland firefighting and perfect for structural overhaul/mop-up. Its sleek design makes it comfortable to wear, even in hot climates. The black Velcro® attachment point at the bridge of the nose on the outside of the Brush Pro mask should be used for attaching to the goggles. The other three Velcro® attachment points on the outside of the mask should be used for attaching the optional neck shroud. It is machine washable in cold water, and should be hung to dry. (Xcaper® filters, Whiffs® Shroud, and Goggles are sold separately.) *Ship. wt. 1 lb.*
