The Survivor® from Streamlight

Survivor® has long held the trust and respect of professionals around the world. Now, there are more reasons to make it your flashlight of choice. The Survivor® is stronger and more reliable than ever. Lightweight and built from a high-impact nylon casing, the Survivor® offers exceptional durability and weather resistance. The Survivor® is rugged enough to withstand the UL 30-ft. drop test. Streamlight's new and improved professional light is also engineered with a one-way valve for case venting and "O" ring sealed opening to protect against moisture and dirt. *Class I, II, III Division 2 Approved. Color: Orange. Ship. wt. 3 lbs.*

- ▶ Extra efficient recharging. New "PiggyBack™" charger model allows simultaneous recharging of the light and a spare battery
- ▶ Quick-change battery. The new steel hinged door and latch model allow for quick loading of a spare battery
- ▶ Brighter than ever. Features the 5.5 watt, "Black dot" Xenon bulb with up to 25,000 cp and "Smoke Cutter®" optics
