DESCRIPTION

ActivGrip™ Advance KEV is a combination of Kevlar® fiber and MicroFinish® technology, promising the outstanding cut resistance and excellent grip performance. The 13-gauge seamless Kevlar® liner and "open back styling" provide excellent coolness and flexibility, which minimize hand fatigue, thus increasing productivity. Already known for its performance of ActivGrip™ Advance, a soft yet durable Nitrile MicroFinish® coating adheres to virtually any dry or slippery surface.

FEATURES

Cut resistance

ActivGrip™ Advance KEV together with Kevlar®, a choice for bullet resistant vest, offers the high assurance of cut resistant protection.

Oil Resistant

Unlike similar gloves available in the market, ActivGrip™ Advance KEV offers more promising protection to oil penetration. Double coated surface keeps hands clean for oily handling.

Confidence

With MicroFinish® technology, the Advance KEV promises its performance under dry, wet and oily conditions.

Comfort : A 13-gauge seamless liner and ergonomic design assure a maximum comfort and minimum hand fatigue.
