

Fire-Dex Fire Gloves

Fire-Dex began in the protective clothing market with gloves in 1983. The Honor™ and Courage™ Gloves were created as a tribute to firefighters who put their lives on the line. We are committed to quality and make it a priority in all of our products!

Fire-Dex® Honor™ Glove

The Fire-Dex Honor™ Glove features a durable cow hide palm and a flexible elk skin back. Compliant to NFPA standard 1971, the Honor Glove provides optimum security and comfort. Available in a choice of three moisture barrier combinations, the Honor Glove with CROSSTECH® DIRECT GRIP® glove inserts offers unparalleled dexterity, durability and protection.

CROSSTECH® DIRECT GRIP® Technology

The Fire-Dex Honor™ Glove features waterproof, breathable CROSSTECH® DIRECT GRIP® glove inserts that provide enhanced dexterity through improved glove flexibility, as well as resistance to penetration from liquid, blood, body fluids and NFPA common fire ground chemicals. Most Fire-Dex gloves are available with CROSSTECH® DIRECT GRIP® glove inserts or waterproof, breathable CROSSTECH® glove inserts. CROSSTECH® glove inserts provide thermal stability and abrasion resistance unmatched by any other waterproof barrier product.

Fire-Dex® Courage™ Glove

The Fire-Dex Courage™ Glove features a lasered goat hide palm, and is currently the only NFPA compliant goat glove on the market. Goat's best attribute is its ability to naturally repel water, and as a result provides one of the best materials for gloves. Partnered with an elk hide back for flexibility, the Fire-Dex Courage Glove provides optimum protection, while keeping the comfort level high – and dry.

Fire-Dex Glove Options

Fire-Dex believes a glove should fit. We offer a variety of options to ensure maximum dexterity on the job. Two styles accommodate different hand types, with two cuff styles to accommodate different turnout systems. Three levels of liquid repellency allow you to customize our glove to your specific needs and budget.

FEATURES	OPTIONS
2 Styles in 8 Sizes (XXS-3XL)	TrueFit™ (GO3) - Standard fingers with wing thumb and wrap-around index finger. Standard Fit (GO1) - Longer fingers with straight thumb.
2 Different Cuff Styles	Leather gauntlet cuff (L) Nomex® Knitwrist cuff (N)
3 Levels of Liquid Repellency	Defendex™ glove inserts – Good – An economical, non-breathable moisture barrier. CROSSTECH® glove inserts – Better – Premium breathability and water repellency. Provides maximum protection with a thermal barrier. CROSSTECH® DIRECT GRIP® glove inserts – Best – One-layer of combined moisture and thermal protection optimizes dexterity and comfort while providing proven protection.
