

Fully Powered Electric Pallet Trucks

Fully powered pallet truck for easy and quick operation. Includes fingertip raise and lower buttons. Easy-to-operate throttle for forward and reverse direction. Throttle offers infinite forward and reverse speeds. Safety features include a horn and belly reverse button. Units run off 24V batteries with battery charger standard. The 3,000 pound capacity models use two 12V batteries with 70Ah rating. The 4,500 pound capacity models use four 12V batteries with 180Ah rating. Units will typically achieve a minimum of eight (8) hours of service on one full charge.

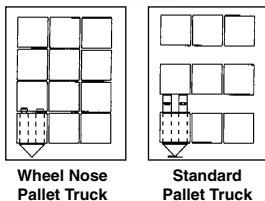

MODEL NUMBER	CAPACITY* (POUNDS)	FORK SIZE (W x L)	SERVICE RANGE	OVERALL SIZE (W x L x H)	NET WT. (LBS.)

Wheel Nose Pallet Trucks

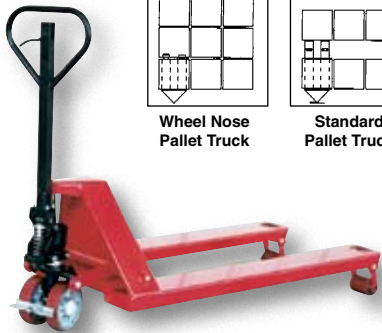

- Take the Guess Work Out of Close Pallet Placement
- Optimize Floor and Truck Space with this Innovative Pallet Truck

The Wheel Nose Pallet Truck is designed to position pallets or skids closely together. The fork end is set back from the front rollers allowing for one pallet pick up at a time. The unit has a rubber grip handle with a three position lever for easy operation and maneuvering. This heavy-duty unit is rated at 5,000 pounds capacity and has a service range from 3½" to 8". Unit includes two articulating steering wheels and two front load rollers. Spring loaded loop handle automatically returns to vertical position when not in use. 38" forks are used for maneuvering in tight spaces.

Wheel Nose Pallet Truck

Standard Pallet Truck
