## Drum Stands

Drum Stands provide economical and convenient portability. These stands offer a uniquely designed understructure that allows for transporting of drums with either a pallet truck or fork truck. Fork lock tabs minimize the possibility of the drum stands accidentally tipping while being transported with a fork truck. Accepts steel, plastic, and fiber drums.

The Drum Stand also allows for single drum stacking for easy storage of drums up to three high (empty stands are nestable and stackable). All welded steel construction. Stands include a safety yellow powder coat finish.
