

Traffic Safety Equipment

BARRICADE LIGHTS

ITE approved 6V or 12V with or without photo cell. High-impact plastic case with 7" diameter lexan lens and solid state transistor circuit.

Item #	Description
BL-6V	6 Volt
BL-6VP	6 Volt with Photocell
BL-12V	12 Volt
BL-12VP	12 Volt with Photocell

Barricade Light Bulbs

Item #	Description
BLB-6	6 Volt Bulb
BLB-12	12 Volt Bulb

6 Volt Lantern Battery

Item #	Description
BAT-6V	Takes 2 Batteries for Barricade Light

Airport Wands

Hand held, battery powered warning light wands for directing aircraft as well as vehicle traffic. Translucent white wand is 21" long and can be operated in 3 states: flashing red strobe, steady red or steady blue. Holds two C cell batteries and has a belt clip. Translucent red wand is 16 1/4" long and can be operated as a flashing red strobe or a steady red. Holds two D cell batteries. Both with attached lanyard.

Item #	Description
WAND-W	21" Translucent White Plastic Wand
WAND-RO	16 1/4" Translucent Red Plastic Wand

Batteries not included.

STROBE LIGHTS

Compare our quality! All our Strobe Lights feature:
 Made in the USA, 2 yr. warranty on power supply.
 Xenon plug-in flash tube.
 Heavy duty strobe light reduces returns and service.
 All major components are field serviceable.

Magnum™ "Double" Flash Strobe Light

The high power strobe features a large mount for easy mounting without disassembly. Powerful proven reliability insures one of the most efficient Double Flash Strobes available. Flash rate: 80 double flashes per minute. Mounting: Two 1/4" dia. holes 6 7/8" apart. Size: 8 1/4" H, 6 3/4" dia. Weight: 2.75 pounds.

Voltage: 6, 12, 24, 36, 48. Lights are shipped 12V with amber lens.

Item #	Description
MSL-FM	Flat mount
MSL-PM	Pipe mount
MSL-MM	Magnet mount w/Cigar plug

Penetrator™ "Double Flash" Strobe Light

Low profile strobe with universal mounting base. Low profile, rugged die-cast base. Mounting holes 6 1/2" centers. Size: 4"H. Lights shipped 12V with amber lenses.

Item #	Description
PSL-FM	Flat mount
PSL-PM	Pipe mount
PSL-MM	Magnetic mount w/Cigar plug & hook & loop dash mount

Anodized aluminum housing (Heavy duty strobe has lexan housing).
 Solid State circuitry double epoxy dipped.
 Reverse polarity, flash tube failure & over voltage protection.
 Hardware & mounting instructions provided.
 S.A.E. & A.A.M.V.A. approved (reduces liability).

Heavy Duty Strobe (Low Profile)

Ideal for forklifts, electric vehicles, contractors trucks and equipment. Flash rate: 60 per minute. Low profile diameter: 3 5/8" dia. x 4"H. Lights are shipped 12V with amber lens.

Item #	Description
HDS-FM	Flat mount
HDS-PM	Pipe mount (Base threaded for 1/2" pipe)
HDS-MM	Magnetic mount w/Cigar plug

Defender™ "Two" Bulb Rotating Light

90 Flashes per minute. S.A.E. approved double light design offers dependable service for municipal, industrial, & automotive applications. Size: 8" diameter, height 8". Voltages: 12-24 VDC. Lens: amber, blue, red, clear. Lights are shipped 12V with amber lens.

Item #	Description
DRL-FM	Flat mount
DRL-PM	Pipe mount
DRL-MM	Magnetic mount w/Cigar plug
