

Heavy-Duty Poly Lids for Self-Dumping Hoppers

Keep the contents of hoppers out of sight for a cleaner appearance with our new Hopper Covers. Constructed from heavy-duty virgin black polyethylene material, these lids are lightweight and easy to open. The top of the lid includes a crown for water drainage, and a ribbed design for strength and aesthetics. Ideal for schools, hospitals and warehouses. Factory installed when ordered with hopper. May also be easily field installed. 1½ cubic yard hoppers and smaller feature one piece lid design.

Casters for Self-Dumping Hoppers

Transport loads with portable hoppers. When casters are ordered with hopper, quick-install caster pads are factory-welded to the base of the hopper. The casters are then shipped uninstalled to prevent freight damage. Casters not ordered with the hopper will need to be welded in place by the customer. The ¼ and ½ cubic yard "H" series hoppers only include three casters - two rigid and one swivel. The maximum weight capacity is the lowest weight capacity of either the hopper or the caster.

WEIGHT OF HOPPER MUST BE CONSIDERED WHEN CALCULATING USABLE CAPACITY

Portable Steel Hoppers

Portable Steel Hoppers make handling waste and bulk material safer and more convenient. Fork truck entry tubes are designed to move hopper over rough terrain (not to be used as a self-dumping hopper). Usable fork pockets are 7" x 2" on 21-5/8" centers (11-5/8" fork pocket center for ½ cubic yard capacity model only). Foot operated caster lock is included. Units tilt with assistance from operator handle for dumping contents. Must be attached to fork truck when dumping. Welded construction makes them durable. Powder coat blue finish.
