

3M™ Chemical Sorbents

3M™ Chemical Sorbent Folded C-FL550DD, High Capacity

34306

Folded sorbents are the easy-to-use solution for emergency response situations. That's because they're actually four sorbent configurations in one folded sorbent dispenser box. 3M Chemical Sorbent Folded also offers:

- Four sorbents in one. It can be used as a boom, pillow, pad, or roll, allowing you to stock just one product for emergency response.
- Perforations every 16 inches—allow you to select the length you need, so there will be less wasted sorbent.
- Made from chemically inert polypropylene material—recommended for use with chemicals such as acids and bases as well as aqueous- or hydrocarbon-based fluids.
- Comes in a handy dispenser box for easy, on-site storage and improved response time.
- Uses 3M's high-capacity sorbent technology—increased fluid-holding capacity which means less sorbent is used and there's less sorbent waste for disposal.
- Includes directions for sorbent use right on the box.
