

Multi-Purpose Drum Truck/Cradle

One of the most versatile drum trucks in the industry. This innovative product allows the operator to easily tip back the truck in order to transport drums ergonomically on four wheels. Unit doubles as a drum cradle for storage and dispensing all in one. Top angle is 3 degrees when used as a Drum Cradle. This unique design also allows the operator to place drums and retrieve off of a pallet. Accommodates 55-gallon steel, plastic, or fiber drums. Rolls smoothly on (2) 8" x 2", and (4) 6" x 2" wheels. Standard with a wheeled undercarriage that positions the drum horizontally for drainage or storage. The drum height is 14¾" high and a drip pan is available. An integral self-storing bung wrench is standard. This attractive feature not only opens numerous drums, but helps to keep the drum snug on the truck. A convenient kickstand allows for upright storage. Powder coat finish.

MODEL NUMBER	OVERALL SIZE (W x L x H)	CAPACITY (POUNDS)	WHEEL TYPE	NET WT. (POUNDS)
RDBT-MR	21" x 58" x 20"	1,000	MOLD-ON-RUBBER	70
