

POWERCOM PLUS

2-way wireless headsets

Peltor's PowerCom PLUS wireless 2-way communication headsets are the ultimate choice for industrial users in high noise environments where clear, crisp 2-way communication is essential. The power of Peltor technology, design, comfort and electronics, makes it perfectly suited for:

- ▶ Crane Operators
- ▶ Airport workers
- ▶ Construction
- ▶ Manufacturing
- ▶ **Transmit/receive range of up to two miles**
- ▶ **Hands-free operation**
- ▶ **NRR 26dBA**

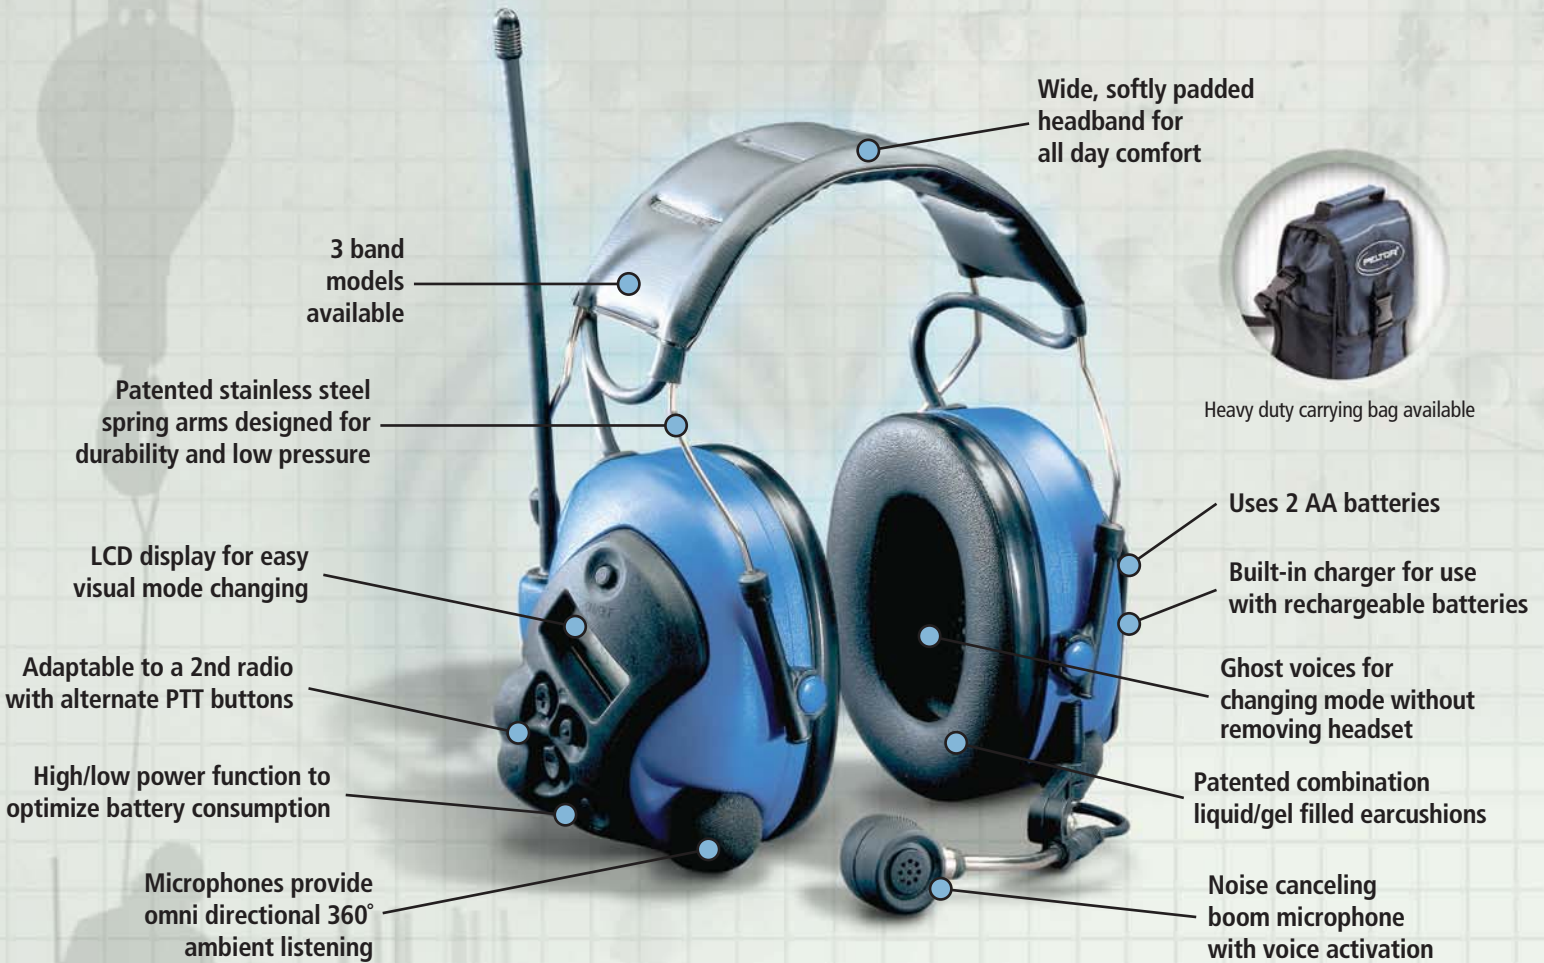

POWERCOM PLUS

2 - way wireless headsets

PowerCom PLUS Wireless Headsets represent the ultimate level of performance and flexibility that Peltor, the worldwide leader in communication headsets, is widely known for. Wearers are able to communicate clearer and further apart than ever – at distances up to two miles! A sampling of the impressive list of features includes "surround sound" listening capability, voice-activated hands-free transmissions, and the use of 14 FRS license free channels, and illustrate why the PowerCom PLUS is the most versatile and useful communication headset available for high noise environments today!
