

## Overhead Door Warning Barriers

Protect overhead doors from fork truck damage. Heavy-duty PVC construction is lightweight and will not rust. Highly visible black and yellow safety tape and two American flags serve as a visual warning. Includes two 15' long chains with quick connects to hang barrier from ceiling or existing overhead door track.

*Model ODG-133-BL* features built-in warning sirens and flashing lights that activate when the barrier is bumped or contacted. Provides for an audible and visual warning before damage to overhead door is caused. Requires (2) 9V lithium batteries, not included.

MODEL NUMBER	DESCRIPTION	OVERALL LENGTH	NET WT. (POUNDS)
ODG-121-F	ECONOMY WARNING BARRIER	120"	40
ODG-133-BL	DELUXE WARNING BARRIER	133"	45

ECONOMY WARNING BARRIER • model ODG-121-F

DELUXE WARNING BARRIER • model ODG-133-BL

## Automatic Overhead Door Lock

Unique product will allow overhead doors to be locked in virtually any up position. Automatically locks doors in full up position or in the closed position. Prevents the overhead door from unexpectedly "slamming down". Protects personnel, product, and equipment. Spring-loaded locking latch is released by pulling rope (included). Simply bolts to any overhead door (installation hardware is not included). Includes two reversible "locking plates" that may be mounted anywhere along door track. Heavy-duty welded steel construction with yellow painted finish.

DR-LOCK	OVERHEAD DOOR LOCK	YELLOW	10

## Mezzanine Safety Gate

The Mezzanine Safety Gate provides an OSHA required 42" high handrail, 21" high mid-rail and 4" high kickplate for mezzanines without sacrificing load accessibility. The gate rotates to allow a usable area of 58"W x 76"H x 70"D. Gate design is balanced to allow for easy operation without use of springs. Safety yellow powder coat finish. Welded steel construction.
