Have you ever tried to juggle 670 pounds of wet laundry? We have.

Throughput is everything when it comes to industrial laundering. So when you put your drying equipment through the paces, it better be able to keep up. ADC manufactures 5 high performance and high-volume models that accommodate anywhere from 200 to 670 pounds of wet laundry per load. In fact, our machines have been known to run 4 loads an hour, 8 hours a day, and 365 days a year. That's enough to make your head spin, but that's not our business. We just make your laundry spin and we do it in a way that's not only efficient, but also reliable. Load after load, hour after hour, day after day.

AD-200

- Capacity: 200-lb (90.72 kg)
- Basket Volume: 74.5 cu ft (2,109.60 L)
- Heat Input: 650,000 Btu/hr (163,797 kcal/hr)
- Airflow: 5,300 cfm (150.08 cmm)

AD-310

- Capacity: 310-lb (140.61 kg)
- Basket Volume: 106.5 cu ft (3,015.74 L)
- Heat Input: 1,125,000 Btu/hr (283,495 kcal/hr)
- Airflow: 6,500 cfm (184.06 cmm)

AD-410

- Capacity: 410-lb (185.97 kg)
- Basket Volume: 143 cu ft (4,049.31 L)
- Heat Input: 1,400,000 Btu/hr (352,794 kcal/hr)
- Airflow: 9,200 cfm (260.52 cmm)

AD-464

- Capacity: 460-lb (208.65 kg)
- Basket Volume: 175 cu ft (4,955.44 L)
- Heat Input: 2,800,000 Btu/hr (705,588 kcal/hr)
- Airflow: 13,000 cfm (368.12 cmm)

AD-670

- **Capacity:** 670-lb (303.91 kg)
- **Basket Volume:** 256 cu ft (7,249.11 L)
- **Heat Input:** 2,200,000 Btu/hr (554,391 kcal/hr)
- **Airflow:** 13,000 cfm (368.12 cmm)
