

3M™ Chemical Sorbent Spill Kits and Response Pack

Chemical folded sorbent spill kits are the perfect solution for emergency response flexibility. With all of the features of 3M folded sorbent, they can be used with most hazardous liquids. The 3M™ Chemroll 5-Gallon Spill Kit is compact for easy storage—ideal for rapid response. It can be squeezed and molded into confined areas such as behind truck seats and in the trunks of cars. Encased in a clear plastic shrink wrap, it resists damage from exposure. Center dispense option allows you to use only the amount you need, leaving the rest enclosed for future use. The 31-gallon spill kit is packed in an element-resistant 20-gallon drum which is color coded yellow for easy identification.
