

SWAT•TAC

special ops Headsets

Clear and reliable communication is critical to the success of any Swat operation. Peltor's Swat•Tac combines our latest surround sound technology and slim-line earcup design to offer the most versatile special ops communication headset available.

- ▶ **Covert black finish on all components**
- ▶ **Fits under ballistic helmets**
- ▶ **Adaptable to any police radio system**

SWAT•TAC

SPECIAL OPS HEADSETS

The Swat•Tac incorporates our innovative surround technology that has made Peltor the worldwide leader in communication headsets. Not only will the Swat•Tac protect against hearing loss with a passive attenuation of 20dB, the outer cup microphones combined with the electronics inside the headset will instantaneously suppress dangerous gun shots and also amplify in stereo ambient surrounding voices. With our large selection of waterproof radio push-to-talk (PTT) adaptors, this headset can be used in a variety of missions with any existing or new radio system.
