When the margin for error is zero, the choice is clear.

Contamination can shut down an entire operation - or worse, result in costly decontamination of your clean room facility or controlled environment. When the margin for error is zero, turn to ADC. Our sophisticated line of contamination control dryers is equipped with advanced HEPA/ULPA filtering systems to control airborne particle concentrations to meet the most exacting cleanliness levels.

[ADH-120](#)

- **Capacity:** 120-lb (54.43 kg)
- **Basket Volume:** 38.2 cu ft (1,081.70 L)
- **Steam Consumption:** 450-lb/hr (202.2 kg/hr)
- **Boiler HP:** 13 Bhp
- **Airflow:** 1,950 cfm (55.2 cmm)

[ADH-170](#)

- **Capacity:** 170-lb (77.1 kg)
- **Basket Volume:** 51.2 cu ft (1,449.82 L)
- **Steam Consumption:** 725-lb/hr (329.1 kg/hr)
- **Boiler HP:** 19 Bhp
- **Airflow:** 4,400 cfm (124.56 cmm)
