Pallet Jockey for "Walkie" Trucks

- Eliminate the Use of Fork Trucks for Unloading
- Maximize Your Trailer Loads and Profits
- Reduce Work Related Injuries

The Pallet Jockey is a simple device that allows drivers and warehouse personnel to efficiently unload sideways pallets with their "Walkie" powered pallet trucks without wasting valuable time and resources.

The Non-Adjustable unit is ideal for warehouse distribution centers that have one particular electric pallet truck model. To use simply place the Pallet Jockey hooks into the fork wheel openings. Fits both Raymond and Crown brands.

The Adjustable unit is designed to fit various types of electric pallet jacks. To use simply loosen wing bolts and slide adjustable brackets to proper slot, then tighten wing bolts.
