Four Wheel Multi-Position Steel Hand Truck

This hand truck is great for uneven surfaces and outdoor work. Small 4" x 1¼" mold-on-rubber swivel casters are located at the back of the cart to stabilize loads and prevent tipping. The back casters will also transform the unit into a horizontal platform truck. The unit will lie back horizontally, the handle will release to a standard position, and now the cart is a platform truck. 10" x 3½" pneumatic casters. Ships knockdown.

TWC-400	16¼" x 12"	400	23¾" x 22" x 50"	47

Aluminum Ergonomic Hand Truck

Heavy-duty construction, yet lightweight aluminum design, provides superior control. This unit has knuckle guard handles, fold up nose plate, and curved back plate for transporting cylindrical objects. Transporting down stairs or steep hills is no problem with this unit. 10" x 3½" pneumatic wheels are standard. Ships knockdown.

High Back Aluminum Hand Truck with Push Out

The High Back Aluminum Hand Truck with Push Out will transport tall heavy loads weighing up to 300 pounds from workstation to workstation. When the load has reached its final destination, the user simply pushes down on the back plate with their foot and the plate on the front of the unit will slide the load off. This feature reduces stress on the user's back. 8" x 1¼" semi-pneumatic wheels. Ships knockdown.
