CONTAINER  
model SCC-55

## Poly Drum Cradles

Dispense drum contents into smaller containers and avoid messy clean-ups with our Poly Drum Cradles. The horizontal drum cradle collection system captures all spills and leaks and stores them in the interior of the hollow cradle for reuse or safe, clean disposal. 2" NPT drain plug is standard. Fork entry measures 6" x 3". Made from 100% virgin polyethylene.

*Model VCRD-P* features retractable handles for tilting and positioning drums. Includes a round contoured lower back for easier rotation of drums from horizontal to vertical position and 6" x 2" polyolefin wheels.

MODEL NUMBER	DESCRIPTION	SUMP CAPACITY	CAPACITY (POUNDS)	NET WT. (POUNDS)
VCRD	STATIONARY	41-GALLONS	800	30
VCRD-P	PORTABLE	30-GALLONS	800	45

## Plastic Pallets & Drum Spill Containers

*Model DRUM-4848* is constructed from 100% polyethylene. Move drums from workstation to workstation with a fork truck or pallet truck. Holds (4) 55-gallon drums. Features: 4-way entry, reversible and holes for drainage.

**Low Profile Spill Decks** are designed to catch spills. *Model VLPDP-2448*, has a volume capacity of 9-gallons, while *model VLPDP-4848* has an 18-gallon volume capacity. Manufactured from chemical resistant polyethylene. Removable decking standard.

**Drum Spill Pallets, series DR**, industrial strength molded polyethylene pallets with unique patented grid pattern drainage deck capture container spills and leaks of expensive materials for reuse. Unique design minimizes sloshing when transporting. Excellent for collecting most hazardous products. Dozens of applications when coordinated with many other containment products.

**Drum Containment Units, series SCC**, are specially designed to contain leaks and spills from 55-gallon drums during plant transport and storage. Either a fork truck or Overpack Drum Dolly can be used to transport the containment units.

MODEL NUMBER	DRUMS ACCEPTED	OVERALL SIZE (W x L x H)	SUMP CAPACITY	CAPACITY (POUNDS)	NET WT. (LBS.)
DRUM-4848*	4	48" x 48" x 6"	0 gal.	3,500	79
VLPDP-2448**	2	24" x 48" x 2¼"	9 gal.	1,600	24 (UPS)
VLPDP-4848**	4	48" x 48" x 2¼"	18 gal.	3,200	40
DR-1-DP	1	36" x 36" x 16"	61 gal.	800	40
DR-2-DP	2	26¼" x 50" x 16"	40 gal.	1,600	40
DR-3-DP	3	26¼" x 76" x 11"	65 gal.	2,400	60
DR-4-DP	4	49" x 49" x 16"	110 gal.	3,200	80
SCC-55	1	30¼" x 26"	65 gal.	800	20
SCC-2-55	2	31½" x 22½"	120 gal.	1,600	48

## Overpack Drum Dollies & Containers

Transport containment units with Overpack Drum Dollies, *series DRUM-SP*. Designed to hold drum spill containers. These dollies roll smoothly on four swivel casters. Steel construction. Powder coat finish.

The **Containment Units, series SCC**, are specially designed to contain leaks and spills from 55-gallon drums during plant transport and storage. Either a fork truck or Overpack Drum Dolly can be used to transport the containment units.
