Hydraulic and Winch Stackers

Safe ergonomic alternative to fork trucks at a fraction of the cost. Engineered for smooth operation and outstanding durability, the Hydraulic Stackers handle the following applications: lift and transport skids, bales, and baskets; load/unload trucks, stock shelves, handle dies, molds, or pallets. By combining a power lift with an easy to operate manual push, these Hydraulic Stackers are perfect for maneuvering in tight or congested areas. Complete with on-board charger. Features: 24" horizontal load center, adjustable straddle legs (34" to 50" I.D.), and adjustable forks 6" to 24" (O.D.). 6" swivel phenolic rear casters and 4" phenolic front wheels are standard.

The Compact Winch Stacker is a less expensive ergonomic alternative for lifting pallets of all sizes. This compact unit is perfect for loading/unloading trucks where docks are not available. Features include: safety cage, adjustable straddle legs (34" to 50" I.D.), winch with an automatic braking system, a floor brake to secure unit in place, adjustable forks (6" to 24" O.D.) and 4" swivel phenolic casters/4" phenolic front wheels.

MODEL NUMBER	OPERATION	SERVICE RANGE	CAPACITY (POUNDS)	OVERALL SIZE (W x L x H)	NET WT. (POUNDS)
