

## Electric Adjustable-Height Work Benches

Soft start and stop prevents jarring and provides smooth and even height adjustment. Increase productivity while decreasing fatigue and trauma associated with uncomfortable work positions. Hand pendant control with raise and lower buttons on coil cord and hideaway slide in tray. 115V, 1 phase power supply standard. Extremely sturdy construction with programmable controller allows for three preset heights or for infinite control up and down range with push buttons.

| MODEL NUMBER | DESCRIPTION | PLATFORM SIZE (W x L) | SERVICE RANGE | CAPACITY (POUNDS) | NET WT. (POUNDS) |
|--------------|-------------|-----------------------|---------------|-------------------|------------------|

## Linear Actuated Adjustable-Height Work Bench

Increase productivity by allowing the body to reposition to a more comfortable position. The Linear Actuated Adjustable-Height Table allows anyone, regardless of their height, to easily use the table as a workstation or desk. Cantilever design optimizes foot, knee, and leg room. The 36" wide x 36" deep platform is large enough for small parts assembly and will hold up to 500 pounds evenly distributed. A hand-held raise and lower control is attached to the understructure of the table; no more misplacing the remote. Durable hardwood platform standard.

| MODEL NUMBER | PLATFORM SIZE (W x L) | SERVICE RANGE | CAPACITY (POUNDS) | OVERALL FRAME SIZE (W x L) | NET WT. (POUNDS) |
|--------------|-----------------------|---------------|-------------------|----------------------------|------------------|
| LAW-3636     | 36" x 36"             | 30" to 45"    | 500               | 36" x 36"                  | 210              |

## Manual Adjustable Ergonomic Work Benches

Raise material to an ergonomic working height with the Manual Adjustable Ergonomic Work Bench. A fold away hand crank is located directly under the platform for easy raising and lowering. Hydraulic system will raise platform evenly. Rugged steel understructure.

| MODEL NUMBER | PLATFORM SIZE (W x L) | SERVICE RANGE | CAPACITY (POUNDS) | NET WT. (POUNDS) |
|--------------|-----------------------|---------------|-------------------|------------------|
| EWB-6030     | 60" x 30"             | 32" to 46"    | 750               | 316              |
| EWB-7236     | 72" x 36"             | 32" to 46"    | 750               | 339              |

## Synchronized Lift Systems

This unique system may be attached to your equipment to allow for quick and easy height adjustment. It provides for completely synchronized lifting of all four legs at the same time, regardless of weight distribution. Electric/hydraulic operation with single or three phase power available (specify when ordering). Includes four lifting legs with flexible hydraulic hose and quick connectors, slave-style manifold block, electric motor, and hand control. Each lifting leg includes a bolt-on mounting plate (hardware not included). The easy to install components are shipped ready to use. Steel construction.

| MODEL NUMBER | DESCRIPTION                        | CAPACITY (POUNDS) | STROKE | NET WT. (LBS.) |
|--------------|------------------------------------|-------------------|--------|----------------|
| SYNC-3       | (4) RETROFIT LEGS, PUMP & MANIFOLD | 3,000             | 12"    | 400            |
| SYNC-6       | (4) RETROFIT LEGS, PUMP & MANIFOLD | 6,000             | 12"    | 450            |

## Plastic Floor Grid

Ideal for storing product at an elevated height above cold and damp floors. Alternatively used as an ergonomic work surface to provide an anti-fatigue worker friendly environment. Snap together, abrasion resistant "GRID" sections are ideal for wet floors such as paint booths, car washes, or general work areas. Lightweight units are only 2 pounds per section. Easy to attach, no hardware necessary. Sold 15 per box.

| MODEL NUMBER | OVERALL SIZE (W x L x H) | QUANTITY PER BOX | NET WT. PER BOX |
|--------------|--------------------------|------------------|-----------------|
| F-GRID       | 11.8" x 23.6" x 1"       | 15               | 30 LBS.         |
