

3M™ Protective Eyewear | Pro Series

Lens Guide

Hard Coating: Durable coating permanently bonded to lens to extend lens life.

Anti-Scratch Coating: Protective coating on lens that is resistant to scratches in abrasive environments.

UV Protection: Polycarbonate lenses reduce UVB and UVA radiation from natural sunlight by >99%.

Anti-Fog Coating: Provides resistance to moisture in high humidity environments and occurrences of temperature shifts.

Note: all 3M Pro Series Protective Eyewear styles feature UV Protection, Anti-Scratch/Hard Coating. Some styles feature Anti-Fog Coating (noted on style).

1750 Series
