

### Description & Features:

- Versatile, heavy duty gas or vapour thermometer for remote reading applications
- Built to order
- 2.5" (63mm) to 8.5" (215mm) dials available
- Brass or stainless steel capillary and bulbs
- Plain, sliding union or thermowell connection
- Capillary lengths over 5 feet available
- 1/2" bulb diameter
- Panel or direct mount
- Gas: ±0.5% accuracy  
Vapour: ±2% accuracy
- 1 year warranty

### Applications:

- For remote temperature sensing

To order, specify the Code for each section and the Range:

i.e. TRR3 - 2 - 35 - 1 - 05 - 1 - 50/250°F

\*Ranges require stainless steel capillary and bulb

**Please contact us for:**

- Duct flanges
- Sliding union
- Stainless steel 4" (100mm) and 6" (150mm) cases and capillary available on gas remote/direct reading models
- Various bulb dimensions
- Averaging bulb (gas only)
- Other ranges

Note: The use of a thermowell is recommended to protect the thermometer in corrosive or pressure applications, as well as to maintain a closed system during its removal from the process
