

*SORTING & DISTRIBUTING
CONVEYOR SYSTEMS*

Dispat-U-Veyor

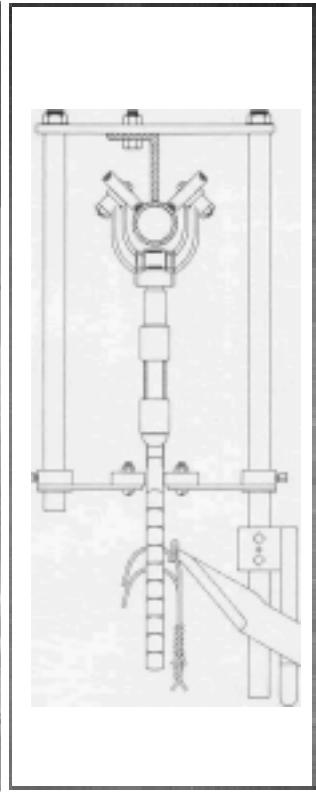

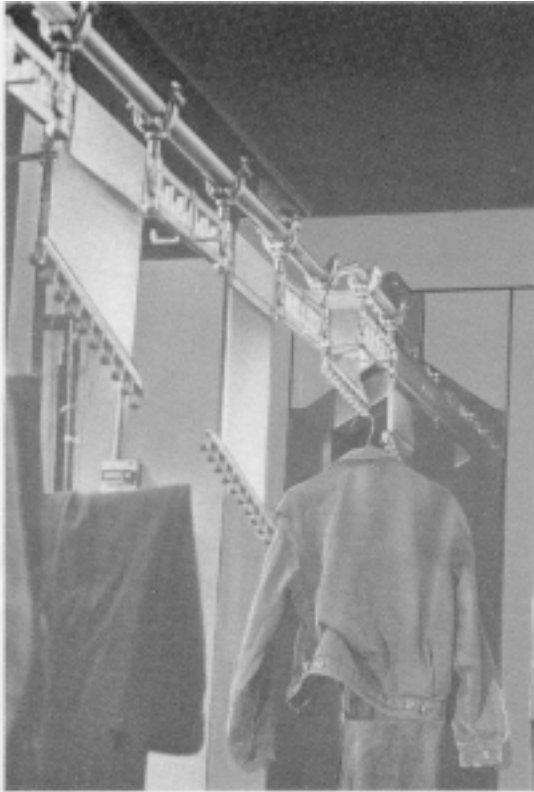

- *Simple, Mechanical Sorting*
- *High Production Capacity*
- *Proven Components*

Dispat-U-Veyor is the leader in basic mechanical sorting conveyor systems. With a capacity of handling 1,200 loads per hour, sorting up to 60 stations, the DT has a 25-year record of success. A **DISPAT-U-VEYOR** system is easily applied in any garment handling operation, and can be used in many light item delivery systems.

DISPAT-U-VEYOR

Proven success...hundreds of installations...consistent, reliable performance.

Hangers are placed on selected hooks, which correspond to discharge stations. Traveling perpendicular to the path of travel items are discharged by passing a mechanical probe...it is that simple!

Dispat-U-Veyor Component Features

- Up to 60 discharge stations can be chosen from one loading position.
- Up to 2,700 carriers per hour...to maximize productivity.
- Variable speed drives to 90 feet per minute adjust productivity, either by remote or manual controls.
- Uni-Directional Sprocket Drive located in 180° or 90° bends.
- Stations mounted from Conveyor track.
- Probes permanently set at picking height.
- Standardized track & chain...easily expandable with available components.
- 10 & 12 Hook Carriers...for sorting versatility.
- Air Operated Take-up devices...automatically adjusts chain slack, reducing maintenance.
