| PMA Max. Allowable Pressure    | <b>150 PSIG @ 650°F</b> |

Note: Optional 200 PSIG PMA/PMO. Consult Factory.

### DESCRIPTION

The Model **PMPLS** pressure motive pumps are low profile. These tanks are often required when draining condensate from process equipment that is positioned close to the ground which limits the filling head of the pump. Pump body & cover are manufactured from carbon steel and are **ASME "UM"** code stamped.
