

AVerTVHD MCE A180 (A180)

Watch Over-The-Air Digital Terrestrial TV on PC

AVerTVHD MCE A180 is the ultimate Hi-definition choice allowing users to watch high quality Digital and HDTV on their PC. The AVerTVHD MCE A180 allows you to watch TV on your Windows XP Home/Professional or MCE 2005 PC, and is Microsoft Vista ready. The AVerTVHD MCE A180 supports 480p, 720p, and 1080i High Definition TV viewing with multiple aspect ratios including 4:3 and 16:9. It will complete your home entertainment center capabilities with High Definition TV viewing.

The AVerTVHD MCE A180 also allows for connection of multimedia devices such as DVD players, camcorders, or game consoles to enhance your multimedia experience on your PC. The included AVerTV 6 application has been specifically designed for users to enjoy a PC multimedia lifestyle while taking advantage of its advanced functions. Users can watch TV or use the PVR and TimeShift features to pause, rewind and replay live digital TV so that they will never miss a moment of favorite Hi-definition TV programs.

Additional features such as Image Snapshot, Sleep Timer, 16-Channel Preview, Full Screen and PIP/POP functions expand the uses and capabilities of a Media Center PC. With the AVerTVHD MCE A180, you can transform your computer into a personal TV system by combining the aspects of a full home theater system. Between the stylish control panel design and exceptional features, make AVerTVHD MCE A180 is the best choice for your Hi-definition PC entertainment.
