

MT110-102**16x8 Mono/8x4 Stereo Audio Matrix Switcher****Common features:**

- Terminal block connectors
- Balanced/single ended ports
- Power LED status
- 32 step volume control
- 20Hz – 20KHz bandwidth
- Line level input/output
- Easy to control
- Low impedance output

*Uses 2 slots in MT enclosure***MT110-103****8x8 Mono/4x4 Stereo Audio Matrix Switcher****Common features:**

- Terminal block connectors
- Balanced/single ended ports
- Power LED status
- 32 step volume control
- 20Hz – 20KHz bandwidth
- Line level input/output
- Variable gain for each output
- Easy to control
- Low impedance output

*Uses 2 slots in MT enclosure***MT110-104****16x16 Stereo Audio Matrix Switcher****Common features:**

- Terminal block connectors
- Balanced/single ended ports
- Input audio level control
- 20Hz – 20KHz bandwidth
- Line level input/output
- Easy to control
- Low impedance output

Uses 4 slots in MT enclosure
