

## AVerTV Hybrid TVBox 11 – TV box tuner (A200)

**Introducing the Newest Generation in HDTV Entertainment!**

**AVerTV Hybrid TVBox 11** is the top of the line in external TVBox tuners with the ability to turn your LCD/Plasma monitor into a TV without the use of a PC! The Hybrid TVBox 11 connects you with Analog TV, HD Digital TV Over-the-Air (ATSC) or Unencrypted Digital Cable (ClearQAM). Cable service subscribers can enjoy more HD channels due to digital ClearQAM simulcast. This TVBox tuner, with its legendary unique design, slim profile and hybrid capabilities, will enhance the way you view and enjoy your Multimedia Digital Entertainment.

Digital Entertainment **Everywhere!**

Sleek, light weight and loaded with features, This stand alone TVBox tuner will convert your LCD/Plasma monitor, multimedia projector, or PC into a HDTV, and plug-n-play multimedia entertainment hub. Besides reviving your LCD/Plasma monitor, by connecting the TVBox 11 to your multimedia projector, it will be transformed into a Digital TV. In addition, multiple entertainment devices such as; camcorders, DVD players and game consoles, can be connected so the users can experience tremendous versatility with their multimedia entertainment, in one centralized location. The included full function remote control allows users to easily switch between their TV, PC and other audio video inputs, which makes the AVerTV Hybrid TVBox 11 great for the home, classrooms or corporate environment.

## Functions and Features

### Transparent PIP

- This function enables you to work on your PC and watch TV at the same time, providing more convenience to watch TV without interrupting your work!
- You can choose the window size from 1/4, 1/9 or 1/16 on your TV screen while working on your PC! Also, the user can see through the PIP, not to cover work on the desktop.

### Progressive Scan, Color/Edge Enhancement Technique and 3D-Motion Adaptive De-interlace

- Decreases flicker to deliver a sharper, clearer picture
- Increase degree of vividness on image
- Advanced 3D-Motion Adaptive De-interlace eliminates jagged edges on TV and DVD movies to improve the clarity and sharpness of the overall image

### AVerMedia's Quality Insistence
