AVerTVHD Bravo - PCTV tuner (H788D)
Enrich your Home Theater PC with HDTV Programs!

The AVerTVHD Bravo will give your existing HTPC a "Power Boost" to higher levels of HD digital entertainment. It's designed to receive High Definition Digital TV Over-the-Air (ATSC) or Unencrypted Digital Cable (ClearQAM*) signals directly to your PC! The AVerTVHD Bravo is a digital tuner, with a single input, that adopt the brand-new PCI Express interface. By using the bundled software AVer MediaCenter, you can relax and enjoy your favorite TV shows in High Definition TV viewing up to 1080i resolution with aspect ratios of 4:3 and 16:9 with the 10-foot experience. Also, with Microsoft Media Center (Windows Vista or Windows XP) compatible platforms, AVerTVHD Bravo brings you to a relaxed TV world.

Enjoy Unencrypted Digital Cable (ClearQAM*) and Over-the-Air Digital TV in HD Quality Video

With Unencrypted Digital Cable (ClearQAM) support, you can easily enjoy more Digital Cable entertainment and view "ClearQAM" Digital TV Cable channels with HD quality. Beyond that, while watching Free Over-the-Air Digital TV programs, you can easily use the TimeShift features to control HDTV programs on your PC.

Record Video in H.264 format and playback on iPod/PSP

With AVer MediaCenter and advanced H.264 recording compression technology, you can record your favorite TV shows into 320 x 240 resolution, download and play it on your iPod/PSP or any other portable player!

AVerTVHD Bravo - PCTV tuner (H788D)

Enrich your Home Theater PC with HDTV Programs!

Functions and Features

Your Personal Multimedia Control Center

AVer MediaCenter

TV

A clean and simple way to enjoy HDTV from the comfort of your sofa

AVer MediaCenter takes PCTV software to a new level and offers a user-friendly 10-foot UI adapting to your Digital home lifestyle.

USA and Canada only: Order optional AVerMedia MCS remote control (SKU # MPMCSRCKW) from AVerMedia e-Store at: www.avermedia-usa.com/AVerTV/estore/estore.html

TV An easier way to enjoy and record TV or FM programs, even watch multiple TV channels at the same time via an antenna, cable, or satellite TV signals. You can also listen to live radio.Teletext overlays on the screen just like it would on your TV for convenient viewing.

Music AVer MediaCenter offers an intuitive way to listen to your music from files and folders by date, name, or format. Easily access your personal digital music library, play it as background music while viewing slideshow photos or using other functions on your computer.

Video It offers an intuitive way to view your video files and folders by date or by name, providing an interactive video playback experience.

Pictures Users can capture images from any source, including analog TV, digital broadcast, camcorder or VCRs. Consecutive snapshots or photos can then be viewed as a slideshow with background music and stylish effects.

Easily customize your viewing experience

- PIP / PBP Setting allows the viewing of multiple channels simultaneously
- Single / Sequential Snapshot
- Customized Color Adjustments
- Media Files Management
- Complete Channels Scan Capability
- Smart Power Saving Management
- Record TV Programs in MPEG-1/2/4* Format

Support real-time H.264 recording and playback on your iPod

Real-time H.264 recording and playing provides higher compression rate and high video quality for saving more than 4X hard disk space comparing with MPEG-2 format. Moreover, it can support up to 320 x 240 iPod video format recording, allowing you to enjoy your favorite shows on your iPod.

H.264   320x240   MPEG-2   H.264
                    Quality & Resolution

Expand your multimedia horizons
Access your personal digital music/picture library, play it as background music while viewing the slideshow photos or using other functions on your PC.

Multi-Card Support
The most unique bonus is that it supports multiple AVerMedia tuner cards. You can watch several live programs simultaneously in split windows mode on one monitor (Dependent upon CPU loading).

Unencrypted Digital Cable Content — USA only
