

AVerTV Express™ mini Your Invisible PCTV Tuner Card for Laptops!

The AVerTV Express™ mini (Model H968U) is a DTV Ready compact and portable ExpressCard TV tuner. Through its High Gain antenna, it has the ability to receive HDTV Over-the-Air (ASTC), Unencrypted Digital Cable (ClearQAM) and FM Radio directly to your laptop at home with the family or out at your favorite coffee shop. The great functionalities and stylish appearance earned it a 2009 CES Innovations Design and Engineering Award.

The AVerTV Express™ mini is a 34mm interface ExpressCard TV Tuner allowing users to enjoy HD Digital TV and FM Radio on their ExpressCard compatible laptop. With its smart ergonomic design, the Express mini is slim and fit for your laptop. It easily inserts completely into your laptop without any protrusions or interfering with the use of adjacent ports, making it your invisible Digital TV tuner card. Also, with the use of the included Stabilizer, it will fit perfectly into a 54mm ExpressCard slot with ease.

Record Video in H.264 format and playback on iPod/PSP

AVer MediaCenter software has advanced real-time H.264 recording compression technology. This allow users record TV shows in 320 x 240 resolution, upload and play them on their iPod / PSP or any other portable media player.

AVerTV Express™ mini

Your Invisible PCTV Tuner Card for Laptops!

The accompanying AVer MediaCenter software has enhanced PVR functions such as Picture Pause. With Picture Pause, you won't miss any displayed information such as lottery ticket results, phone numbers and recipes, because you can pause the image, then continue viewing your program in real-time!

FM Radio and Rewinding Live TV are also part of the PVR functions as well as Record, Schedule Recordings to avoid missing your favorite programs and TimeShift. Furthermore, with 13 channel preview and unsurpassed PIP (Picture-In-Picture) technology, the AVerTV Express™ mini provides additional user-friendly features.

Slim and Fit for your Laptop

The AVerTV Express mini has a smart and user-friendly design. With its 34mm ExpressCard interface, it can be inserted completely into your laptop without any protrusions, making it your invisible PCTV tuner card. Also, with the Stabilizer (included) it will fit perfectly into a 54mm ExpressCard slot as well.

34mm ExpressCard Slot

54mm ExpressCard Slot (With Stabilizer)

With Windows Vista Premium certified drivers and software encoder, makes the AVerTV Express™ mini a perfect match for all Media Center platforms. In addition, the "invisible" AVerTV Express™ mini can play as a bridge between your laptop and various AV devices such as gaming consoles, DVD players or camcorders via its unique dongle. It even comes with the Vista MCE Video Gaming Plug-in software solving the latency problem when playing video games on Vista Media Center.

USA and Canada only: Order optional AVer MediaCenter Remote Control from AVerMedia Technologies, Inc. USA e-Store.
