

AVerTV Hybrid Ultra USB (Media Center Upgrade Kit)

MCE remote control and AVerMedia USB device fulfill your TV viewing experience!

AVerTV Hybrid Ultra USB is a new generation of USB TV solution including an Analog/Digital ATSC receiver with MPEG-2 Hardware Encoder solution. With the full compatibility of Windows XP Media Center Edition and Windows Vista Home Premium and Ultimate Edition Media Center operating systems, this elegant and portable AVerTV Hybrid Ultra USB TV Tuner converts your desktop or notebook into a complete entertainment center. The new economical version of USB TV solution includes an Analog/Digital ATSC receiver to enrich your TV program choices.

Particularly designed for larger screen sizes and featuring a larger user interface, Microsoft Media Center Edition (MCE) operating system provides you an easy way to access all your MCE compliant devices via the easy-to-use remote control. Via AVerMedia's supplied MCE certified remote control, users can store, share, and view favorite live TV programs, digital photos, music, and movies, enjoying all-round multimedia functions anywhere in their home.

With a push of a button, users can watch TV or use the PVR and Time-Shift features to pause, rewind and replay Live TV so as to never miss a moment of favorite TV programs. In addition, AVerTV Hybrid Ultra USB supports up to 1080i High Definition TV viewing with different aspect ratio including 4:3 and 16:9.

Last but not least, with the FM Radio reception, AVerTV Hybrid Ultra USB allows you to have simple access to FM Radio stations. Users can easily enjoy live FM radio while working on their desktop or notebook.
