Ever wished you could just browse all of your movies, no matter where they are stored, with the touch of a button? Now you can add this functionality to your Control4® system and simplify your video viewing experience.

Control4 has long provided a simple way to access the discs in your DVD and Blu-ray changers for easy navigation and playback. The Control4 Media Player now allows you to access a wide variety of digital video file formats, including home movies, stored on NAS drives from any TV in your home. The easy-to-use User Interface makes this the ideal solution for streaming centrally stored digital video content throughout any home.

It's all part of the Control4 vision. We bring the benefits of a truly connected digital home to more people with solutions that are affordable, easy-to-use and designed for any home or lifestyle.

Features & Benefits

- **Easy-to-Use** – Playback your digital video files directly to your TV

- **Low Profile** – Add this compact player behind your TV or in another discrete location so you can minimize your electronic clutter

- **Incredible Value** – Enjoy excellent video quality and independent room control throughout your home at an affordable price

- **Modular Solution** – Start small with one-room control and easily add more video zones when it makes sense for you

- **Hassle-Free Entertainment** – Access your collection of DVD discs, Blu-ray discs and video files from a single, intuitive User Interface

Control4

One-Touch Home Theater

Simplify the control of everyday audio, video, and home theater components, eliminating the need for multiple remotes.

Multi-Room Music

Enjoy digital music collections—like XM or Sirius, Rhapsody, or your personal iPod library—anywhere in your home.

Smart Lighting

Create Lighting Scenes that offer simple control over lights and outlets. Control4 smart lighting uses timers, Motion Sensors, and Dimmers to enhance security and reduce energy costs.

Advanced Temperature Control

Help conserve energy and ensure comfort with pre-programmed temperature controls.

Safety & Security

Integrate a security system or IP cameras to monitor home security from virtually anywhere.
