

Model BF24b shown with Platinum AV Foundations™ model PFV48-B1

BASIC SPEAKER FOUNDATIONS™

Simple yet elegant, these speaker stands raise any speaker to the proper listening height

Basic Foundations™ may be affordable, but they're certainly not cheap. The construction begins with **energy-absorbing MDF**, not particle board. Add to that features like ABS plastic spikes, a **concealed wire path** and **neoprene speaker isolation pads**, and you've got sound Foundations for your speakers.

BF24b | PFV47b

« Three height options allow speakers to be perfectly placed for a custom audio experience

« Sturdy ABS plastic push-in spikes provide a solid foundation on most any surface

« Neoprene speaker isolation pads provide a soft, non-slip surface

« Patented concealed wire path hides even the largest wires from view

« Energy-absorbing MDF construction increases sound quality by providing acoustic isolation

« Easy assembly can be completed in minutes with just a Phillips screwdriver

HTB SPEAKER FOUNDATIONS™

HTB4b | PFV36-B1

Designed for today's home theater surround systems

Sanus' HTB Speaker Foundations™ line blends seamlessly into any home theater setting. Combining the **modern look** of contoured glass or steel with a sleek black or silver finish, these stands will support today's satellite speakers with style. And with features like **concealed wire paths**, **adjustable height** and **two foot options**, audio enthusiasts can display and position their systems perfectly for the optimum listening experience.

« Includes brackets and top plates to fit most small speakers

« Concealed wire path hides wires from view for a clean and organized appearance

« Adjustable height allows speakers to be placed at optimum listening level

« Three different design options are available to suit any satellite speaker and home décor need

« QuickMount™ adapter for speakers with keyholes on back

« Easy assembly can be completed in minutes with just a Phillips screwdriver
