With Composer Home Edition (HE) you can manage and personalize your Control4 system. This means you can create your own lighting scenes, manage your media, create email notifications, and access your home from any internet connection in the world. With Composer Home Edition, you now have the ability to take control of all of the technology in your home and make your life everyday easy.

It's all part of the Control4 vision. We bring the benefits of a truly automated home to more people. We do this with solutions that are affordable, easy to install and easy to use.

Features and Benefits

Personalize Your Control4 System

• Set LED colors on lights and keypads (great for the holidays!)

• Set how fast your lights dim up and down and set the default levels of your Control4 Wireless Dimmers.

• Set the schedule for your Control4 Wireless Thermostat.

• Program the A, B, C, & D buttons on your Control4 System Remote Control.

Easily Manage Your Digital Music and Your DVD Collections

• Add your entire music collection to your Control4 system from your computer, external hard drive, or MP3 player.

• Add custom cover art to compilation CD's or download music cover art automatically.

• Scan your entire DVD collection from your multi-disc changer and automatically import cover art and movie information.

• Create music playlists that are available throughout your entire home and program any keypad button to start a playlist with the touch of a button.

Configure Your Home Using Intelligent Agents

• Use Media Scenes to tie together multiple rooms to play as one zone of music. Link together audio source selection and music control so they function as one.

• Use the Email Notification agent to receive email alerts when any event happens in your home, such as the garage door being left open during the day, a water leak in the basement, or that the security system has been armed or disarmed.

• Create and modify Lighting Scenes customized to your specific needs. Set up a movie lighting scene to dim the lights when your start a movie, or create an "All Off" lighting scene to turn off all the lights in your home at night with the touch of a button.

• Use the Scheduler to program events (such as the porch lights turning on) based on date, time of day, and the sunrise/sunset in your area.

• Create your own Wakeup scenes to wakeup to your favorite music as the lights and temperature in your home ramp up to a certain level every morning.

*Composer Home Edition includes a one-year subscription to Control4's 4Sight Internet Services that allow you to **monitor** and **control** your home from any internet connection in the world.*
